I have been a Benson First Friday (BFF) member since 2018. I was a new business owner and new to the neighborhood. My membership has been very important to the growth of my business.

Through my participation, I have met and made connections with several vendors who are now an important part of my monthly income. I have also made lasting customer relationships. I look forward to the first Friday of every month. I can count on roughly doubling my sales on those evenings.

I truly feel Benson First Friday is a huge asset to the neighborhood. I am a proud member and hope to see it continue and help other small businesses grow.
